1. PURPOSE AND OBJECTIVES OF THE COMPLIANCE PLAN

The purpose of this plan is to detail the measures, policies, procedures and monitoring mechanisms that EPCOR Utilities Inc. (“EUI”) will employ to ensure that the EPCOR Group is in full compliance with the provisions of the Code including in particular all directors, officers, employees, consultants, contractors and agents of Utilities in the EPCOR Group, and by Affiliates of such Utilities with respect to the interactions of the Affiliates with Utilities in the EPCOR Group.

This Compliance Plan describes certain obligations and responsibilities of specified EPCOR Group management personnel. Notwithstanding this, and without otherwise reducing or eliminating the obligation and responsibility of the specified EPCOR Group management personnel to ensure any specific requirements of this Compliance Plan are satisfied, it is understood that all or a portion of the tasks described in this Compliance Plan may be delegated by the specified EPCOR Group management personnel to other EPCOR Group personnel.

The EPCOR Group carries on business activities in all commercial aspects of the electricity business in Alberta.

EPCOR Distribution & Transmission Inc. (“EDTI”) was formed on January 1, 2007 through the amalgamation of EPCOR Distribution Inc. (“EDI”) and EPCOR Transmission Inc. (“ETI”). EDTI owns and operates the electric distribution system previously owned and operated by EDI and the transmission facilities previously owned and operated by ETI. EDTI’s distribution service area is within the municipal boundaries of the City of Edmonton. EDTI transmission facilities are located primarily within the municipal boundaries of the City of Edmonton.

EDTI is a wholly owned subsidiary of EPCOR Utilities Holdings Inc. (“EUHI”) pursuant to Board Order U2006-281. EUHI is a wholly owned subsidiary of EUI.

On September 5, 2013, EPCOR Energy Alberta Inc. (“EEAI”) and EPCOR Energy Alberta Limited Partnership (“EEA LP”) by its general partner EPCOR Energy Alberta GP Inc. (“EEA GPI”) applied to the Alberta Utilities Commission (“AUC” or formerly known as the “EUB”) requesting approval for EEA LP, by its general partner EEA GPI, to provide regulated rate option (“RRO”) and default supply services to electricity customers within the EDTI and FortisAlberta Inc. service area and to several rural electrification associations in central Alberta. EEA GPI is also a Utility as defined in the EPCOR Code. This application was approved by the AUC in Decision 2014-045 on February 26, 2014. EEA LP is referred to in this Plan as “EPCOR RRP”.

To perform EPCOR’s obligations pursuant to the EUB Code, EPCOR has established a committee to co-ordinate the behaviours of its Affiliates chaired by the Conduct Officer. The Conduct Officer is ultimately responsible for all activities within the EPCOR Group and has all of the responsibilities of “Compliance Officer” as contemplated by the EUB Code. As well this Compliance Plan allows the delegation of the responsibilities of Conduct Officer to Conduct Leaders who have the strategic advantage of being in a position to directly influence the operations of the Utility that the Conduct Leader represents.

Questions or comments concerning the Compliance Plan should be directed to the members of the Committee:

On August 6, 2014, EPCOR Utilities Inc. filed with the Alberta Utilities Commission a revised EPCOR Inter-Affiliate Code of Conduct Compliance Plan required as a result of Decision 2014-045. In that Decision, the Commission approved the appointment of EPCOR Energy Alberta GP Inc., in its capacity as the general partner of EPCOR Energy Alberta Limited Partnership, to provide regulated rate option service to eligible customers within EPCOR Distribution & Transmission Inc.'s and FortisAlberta Inc.'s distribution service area. The Commission noted its satisfaction that the plan as submitted, continues to meet the requirements of the EPCOR Inter-Affiliate Code of Conduct.

EPCOR submits the plan has been effective in achieving its stated purpose, namely to;

- ensure Affiliates and their customers do not have preferential access to Utility services; and
- avoid uncompetitive practices between Utilities and their Affiliates, which may be detrimental to interests of Utility customers.
